ABSTRACT

The document contains tables displaying enrollment data for all spring 1999 sessions at Austin Community College (Texas), with comparisons to the same data for all spring 1998 sessions. The numbers for headcount, demographic, credit hour, contact hour and FTSE data reported were obtained by modifying the mainframe SPSS report to include demographics and running it for spring 1999 and spring 1998. Total College-wide Headcount increased slightly to 25,298 in spring 1999 from 25,288 in spring 1998. The report also gives a breakdown of the data for Total College-wide Headcount by race/ethnicity, gender, and age. White, Hispanic, Native American, and international student enrollment increased, while African-American and Asian/Pacific Islander student enrollment decreased. Female enrollment increased by 125, to 53.7% of the total student population, while male enrollment decreased by 118 students. The age distribution of students remained relatively stable. Head counts, credit hours, and contact hours are also provided for each of the nine campuses. (Contains 11 tables.) (JA)

Enrollment Comparison: Spring 1999 and Spring 1998

The following tables display headcount, demographic, credit hour, contact hour and FTSE data for all Spring 1999 sessions, with comparisons to the same data for all Spring 1998 sessions. The numbers reported here are not preliminary twelfth class day numbers reported to the THECB. Rather, they were obtained by modifying the *mainframe SPSS dailyhed report* to include demographics and running it for Spring 1999 and Spring 1998. All deleted sections and accompanying enrollments are excluded. The new discipline to dean crosswalk that went into effect on October 23, 1998 is reflected in the numbers below. All data are as of March 26, 1999

Notes: There is no Spring 1998 comparative data for EVC as Spring 1999 is its first semester of operation. There is no Spring 1999 comparative data for ERG as Fall 1998 was its last semester of operation.

Percentages may not total 100% due to rounding.

A. Total College-wide Headcount is the number that results when a student is counted one time for all courses in which he/she is enrolled regardless of location. A student enrolled in ENG, MTH, and HIS at RVS and in EDG at NRG is counted once.
